

# **FACTORY AUDIT AND ASSESSMENT:**

We can audit your production facilities in the following areas:

- **Audit your production lines: dosage, crushing, mixing, granulation, extrusion, suction network.**
- **Quality issue resolution: Crushing grain size, mixture consistency, granulate quality, optimizing your grain production lines.**
- **Matching your sites with the needs of the production practices for animal feeds.**
- **Providing advice and support for modernising and existing facility.**
- **Providing expertise and advice for mineral product grain sizes.**
- **Providing expertise and advice for setting up an extrusion line.**
- **Training operators to run presses.**
