

STORAGE SILO, CHUTE

- We make silos with capacities of 1 to 30m³ at our own facilities.
- We work with recognised cereals industry subcontractors for capacities ranging from 35 to over 1000m³, both conical or flat bottomed.
- Made of mild or stainless steel.
- We can equip silos with level sensors and temperature controllers.
- On request, our silos may be equipped with decompression filters.
- We can complete our supplies by adapting extraction systems that we make or by offering planetary extractors for products with difficult flow properties soy oilcakes.
